

H1002: Web User Experience & Database Design

Lab 2 (Basic HTML - 1%)

Instructions:

- Visual Studio Code will be used in this course and so you should use this to complete the assignments.
- You should follow any naming conventions that are set out in the Lab assignments.
- You should zip all files and folders and upload it to BrightSpace using the following naming convention <YourIDnumber>_Assignment<W_number>

What You Have to Do

- **Make sure you've watched the Installing VS Code clip and have already installed the Prettier and Live Server extensions in your VS Code.**
- Create a new folder for this lab called Week2Lab on your desktop.
- Then, open VS Code, open Week2Lab folder, and create a new file named index.html.
- Start writing your HTML code inside the body tag.
- Please save all your code to a thumb drive **or OneDrive**. Once you turn off the lab machine, **all your files will be deleted**.

You must follow the instructions, as your code will be used in the next lab.

Using the HTML template provided below, create a simple personal webpage that includes the following (as shown in the sample below):

1. **A main heading** with your name
2. **A profile picture**
3. **Two paragraphs about yourself** including your studies, interests, and hobbies with at least 50 words in each paragraph
4. **A sub-heading** titled My School
5. **A clickable link** to your school's website
6. **A thank-you message** at the bottom

Note: You won't get full marks if you don't present your work at the end of the lab, unless you have notified me in advance by email that you cannot attend the class.

Here's a template:

```
<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>My First Website</title>

</head>

<body>
```

<!-- 1. Add a big heading with your name -->

<h1>My name is</h1>

<!-- 2. Insert an image of yourself -->

<!-- 3. Write 2 short paragraphs about yourself with at least 100 words-->

<p>.....</p>

<p>.....</p>

<!-- 4. Add a smaller heading for "My School Website" -->

<h2>.....</h2>

<!-- 5. Add a clickable link to your school's website -->

<p>Visit my school:</p>

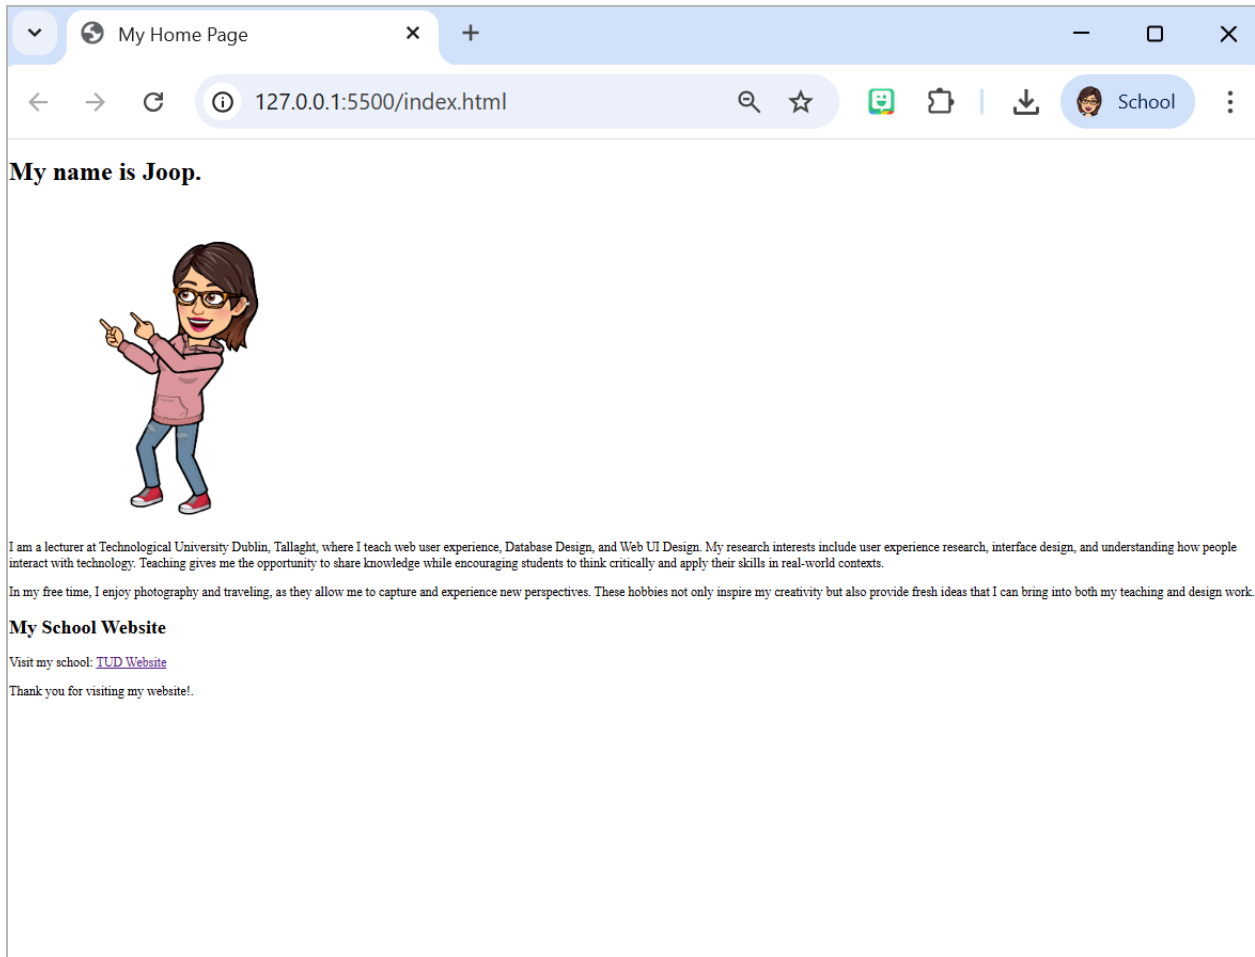

<!-- 6. Finish with a thank you message -->

<p>.....</p>

</body>

</html>

A sample of your first webpage.

Your scores will be checked at the end of the class.

Marking scheme:

0 = Not complete / Cannot explain the work at all

0.5 = Partially completed/ Partially understood

1 = Fully completed / Fully understood
